I am a student in the second year of Master's Degree in Industrial Engineering and MBA at University Pontificia Comillas ICADE-ICAI. As a professional and personnel goal, I seek sustainability, considering of great importance the strategy and my experience.

**EXPERIENCE**

Sept.24-Now - **Open Innovation & Ecosystem** – ACCIONA

This experience is helping me build confidence and fluency in key aspects of the professional world, such as delivering presentations. Additionally, I am gaining valuable insights into the startup and spin-off ecosystem.

**EDUCATION**

2023-2025 - **Master in MBA** - ICADE

This master's degree is equipping me with a strong foundation in financial and strategic knowledge. Moreover, it is enhancing my management and leadership skills through the extensive work on projects and presentations I have undertaken and continue to engage in.

2023-2025 - **Master in Industrial Engineering** - ICAI

Through my master's degree in engineering, I have significantly deepened and expanded my technical knowledge and skills. This program has provided me with the opportunity to work on practical, real-world projects, including the design of a data center. Furthermore, my master's thesis allowed me to explore and advance my concept of reusing elements traditionally considered waste, contributing to innovative and sustainable solutions.

2022-2023 - **Mechanical Engineering Degree** - Drexel University

This experience enabled me to immerse myself in a new culture and adapt to a different educational approach at one of the most prestigious American universities for engineering. Additionally, I had the privilege of collaborating with a diverse team of individuals from various nationalities, achieving outstanding results that earned me a place on the Dean's List during my studies.

2019-2023 - **Industrial Engineering Degree** - ICAI

2009-2019 - **Professional Degree in Music** - Colegio Obradoiro

After completing the intermediate level, I decided to advance to the professional degree. Alongside honing my piano skills to a very high level, I gained experience performing in duets, accompanying dancers and singers, and playing in an orchestra. These experiences taught me the importance of teamwork, patience—especially when revisiting the same section of a piece repeatedly—and perseverance, ensuring that every performance was as polished and cohesive as possible.

**COMPLEMENTARY TRAINING**

2017-2018 - **Volunteer at Equus Zebra NGO**

I had the privilege of leading a social project after winning a contest with my friends. With the funding we received, we dedicated ourselves to supporting children at risk of social exclusion. Our efforts included providing assistance with their homework and organizing excursions to create meaningful and enriching experiences for them.

2009-2019 - **Benefit Concerts**

Thanks to my musical experience, I have had the privilege of organizing and performing in several benefit concerts throughout my academic journey.

**TOP-SKILLS**

- **Communication**
- **Leadership**
- **Perseverance**
- **Analytical skills**
